INDEX OF SUBJECTS

PAGE

ANENCEPHALY, studies on the area cerebrovasculosa of fetuses 315
ANTIBODIES, MONOCLONAL, reaction of xenogeneic and monoclonal antisera with Reed-Sternberg cells . . . 129
ANTI-INFLAMMATORY DRUGS, effects on local (simple) calcergy induced by lead acetate in the mouse 243
ARTICULAR TISSUES in organ culture, effect of cortisol on 335

BONE, reduced resorption of cortical bone in mice with induced osteopetrosis . . 217
BRAIN, enolase isoenzyme distribution in the human brain and its tumours . . 37
studies on the area cerebrovasculosa of anencephalic fetuses 315
BREAST, biological markers in carcinoma . 109
immunocytochemical study of α-lactalbumin 13

CALCERGY, effects of disodium ethane-hydroxy-1,1-diphosphonate and disodium dichloromethylene diphosphonate on lanthanide-induced calcergy 159
effects of various anti-calcific, anti-rheumatic and anti-inflammatory drugs on local (simple) calcergy induced by lead acetate in the mouse . . . 243
skeletal muscle and 1
CARDIOTOXICITY, response of isolated rat heart cells to cardiotoxic concentrations of isoprenaline . . . 167
CAROTID BODY, normal and enlarged: anatomical variation and quantitative histology of 287
CARTILAGE, effect of cortisol on porcine articular tissues in organ culture . . 335
CATS, delayed infarction of spinal cord white matter following x-irradiation . 273
CELL FUSION, direct evidence that inflammatory multinucleate giant cells form by fusion 177
CHIMAERAS, RADIATION, reduced resorption of cortical bone in mice with induced osteopetrosis 217
CIRRHOSIS OF LIVER, slow cirrhosis—or no cirrhosis? A lesion causing benign intrahepatic portal hypertension . . 253
CORTISOL, effect on porcine articular tissues in organ culture 335

PAGE

CYTOPHOTOMETRY, assessment of phagocytosis and pinocytosis on single resident and exudate murine peritoneal macrophages 329

DIABETES MELLITUS, alleviation of diabetic microangiopathy in rats by pancreatic islet cell transplantation . . . 205

ELECTRON MICROSCOPY, delayed infarction of spinal cord white matter following x-irradiation 273
inclusion body fibromatosis . . . 99
melanotic Schwannoma of the skin . . 25
renal ultrastructure in acute tubular necrosis following Russell's viper envenomation 225
response of isolated rat heart cells to cardiotoxic concentrations of isoprenaline 167
skeletal muscles in polymyalgia rheumatica 181
ENOLASE isoenzyme distribution in the human brain and its tumours . . 37
ETHYLENIMINE-induced papillary necrosis, factors influencing the severity and progress of 305

FETUS, anencephalic: studies on the area cerebrovasculosa 315
FIBROMATOSIS, inclusion body . . . 99

GIANT CELLS, MULTINUCLEATE, direct evidence that inflammatory multinucleate giant cells form by fusion . 177
GRANULOMA, IMMUNOPEROXIDASE STUDY OF IMMUNOLOGICAL FACTORS IN HIGH IMMUNE AND LOW RESISTANCE GRANULOMAS IN LEPROSY 149
GUINEA-PIG, isolation and characterisation of mononuclear phagocytes from the bone marrow, blood and peritoneal cavity 139

HEART, response of isolated rat heart cells to cardiotoxic concentrations of isoprenaline 167
HISTOCHEMISTRY, features of the Michaelis-Gutmann body and a consideration of the pathophysiological mechanisms of its formation 119

PAGE

HODGKIN'S DISEASE, reaction of xenogeneic and monoclonal antisera with Reed-Sterberg cells 129
HYPERPLASIA, anatomical variation and quantitative histology of the normal and enlarged carotid body . . . 287
HYPERTENSION, PORTAL, benign intrahepatic: histological findings in livers from a group of 60 patients . . . 253

IMMUNOCYTOCHEMISTRY, α-lactalbumin in human breast tissue 13
biological markers in human breast carcinoma 109
enolase isoenzyme distribution in the human brain and its tumours . . 37
immunoperoxidase study of immunological factors in high immune and low resistance granulomas in leprosy . . 149
isolation and characterisation of mononuclear phagocytes from the bone marrow, blood and peritoneal cavity of the guinea-pig 139
INCLUSION BODY fibromatosis 99
IRRADIATION, delayed infarction of spinal cord white matter following x-irradiation 273
ISLET CELLS, PANCREATIC, alleviation of diabetic microangiopathy in rats by transplantation of 205
ISOPRENALINE, response of isolated rat heart cells to cardiotoxic concentrations of . 167

KIDNEY, factors influencing the severity and progress of ethylenimine-induced papillary necrosis 305
ultrastructure in acute tubular necrosis following Russell's viper envenomation 225

α-LACTALBUMIN in human breast tissue, immunocytochemical study . . 13
LANTHANIDE-INDUCED CALCERGY, effects of disodium ethane-hydroxy-1,1-diphosphonate and disodium dichloromethylene diphosphonate on . . 159
LEAD ACETATE, effects of various anti-calcific, anti-rheumatic and anti-inflammatory drugs on local (simple) calcergy induced in the mouse . . . 243
LEPROSY, immunoperoxidase study of immunological factors in high immune and low resistance granulomas . . 149
LIVER, CIRRHOSIS, slow cirrhosis—or no cirrhosis? A lesion causing benign intrahepatic portal hypertension . . 253

MACROPHAGES, cytophotometric assessment of phagocytosis and pinocytosis on single resident and exudate murine peritoneal macrophages . . . 329

PAGE

direct evidence that inflammatory multinucleate giant cells form by fusion . 177
isolation and characterisation of mononuclear phagocytes from the bone marrow, blood and peritoneal cavity of the guinea-pig 139
MALAKOPLAKIA, histochemical features of the Michaelis-Gutmann body and a consideration of the pathophysiological mechanisms of its formation . 119
MELANOSOMES, ultrastructure of a melanotic Schwannoma of the skin . 25
MICHAELIS-GUTMANN BODIES, histochemical features and a consideration of the pathophysiological mechanisms of their formation 119
MICROANGIOPATHY, diabetic: alleviation in rats by pancreatic islet cell transplantation 205
MONOCLONAL ANTIBODIES, reaction of xenogeneic and monoclonal antisera with Reed-Sternberg cells . . . 129
MORPHOMETRY, anatomical variation and quantitative histology of the normal and enlarged carotid body . . . 287
benign schwannomas 281
reduced resorption of cortical bone in mice with induced osteopetrosis . . 217
MOUSE, cytophotometric assessment of phagocytosis and pinocytosis on single resident and exudate peritoneal macrophages 329
effects of disodium ethane-hydroxy-1,1-diphosphonate and disodium dichloromethylene diphosphonate on lanthanide-induced calcergy . . 159
effects of various anti-calcific, anti-rheumatic and anti-inflammatory drugs on local (simple) calcergy induced by lead acetate 243
reduced resorption of cortical bone with induced osteopetrosis 217
skeletal muscle calcergy 1
MUSCLE, SKELETAL, calcergy . . . 1
ultrastructural examination in polymyalgia rheumatica 181
MYOCYTES, HEART, response of isolated rat heart cells to cardiotoxic concentrations of isoprenaline 167

NECROSIS, RENAL PAPILLARY induced by ethylenimine: factors influencing the severity and progress of . . . 305
NERVOUS SYSTEM, delayed infarction of spinal cord white matter following x-irradiation 273

OBITUARY, Walter Graham Spector . . 97
ORGAN CULTURE, effect of cortisol on porcine articular tissues in . . . 335

PAGE

OSTEOCLASTS, effect of parathyroid hormone. 1,25-dihydroxycholecalciferol and prostaglandins on the cytoplasmic activity of . . . 193
OSTEOPETROSIS induced in mice: reduced resorption of cortical bone . . . 217

PANCREAS, alleviation of diabetic microangiopathy in rats by islet cell transplantation 205
PARATHYROID HORMONE, 1,25-dihydroxycholecalciferol and prostaglandins: effect on the cytoplasmic activity of isolated osteoclasts 193
PHAGOCYTES, cytophotometric assessment of phagocytosis and pinocytosis on single resident and exudate murine peritoneal macrophages . . . 329
isolation and characterisation of mononuclear phagocytes from the bone marrow, blood and peritoneal cavity of the guinea-pig 139
PIG, effect of cortisol on articular tissues in organ culture 335
PINOCYTOSIS, cytophotometric assessment of phagocytosis and pinocytosis on single resident and exudate murine peritoneal macrophages . . . 329
POLYMYALGIA RHEUMATICA, ultrastructural examination of the skeletal muscles in . 181
PROSTAGLANDINS, effect of parathyroid hormone, 1,25-dihydroxycholecalciferol and prostaglandins on the cytoplasmic activity of isolated osteoclasts 193

RAT, alleviation of diabetic microangiopathy by pancreatic islet cell transplantation 205
effect of parathyroid hormone, 1,25-dihydroxycholecalciferol and prostaglandins in the cytoplasmic activity of isolated osteoclasts 193
response of isolated heart cells to cardiotoxic concentrations of isoprenaline . 167
REED-STERNBERG CELLS, reaction of xenogeneic and monoclonal antisera with . 129
RUSSELL'S VIPER VENOM, renal ultrastructure in acute tubular necrosis . 225

SCHWANNOMA, benign: histopathological morphometric study 281
melanotic: ultrastructure of the skin . . 25
SKIN, ultrastructure of a melanotic Schwannoma of the 25
SPINAL CORD, delayed infarction of white matter following x-irradiation . . 273
STREPTOZOTOCIN, alleviation of diabetic microangiopathy in rats by pancreatic islet cell transplantation . . . 205

PAGE

SYNOPSIS OF PAPERS—Pathological Society of Great Britain and Ireland, 8–10 July 1981
A quantitative analysis of leucocyte chemotaxis, by R. A. Brown, D. M. Parham, A. J. Robertson, R. C. Potts and J. Swanson Beck 51
ANA-negative SLE, by K. C. McHardy, C. H. W. Horne and J. A. N. Rennie . 51
The use of Cyclosporin-A in preventing rejection of minced muscle allografts in mice, by Diana J. Watt, T. A. Partridge and J. C. Sloper 51
The toxic effects of cyclosporin A in normal rats, by A. W. Thomson, P. H. Whiting, J. T. Blair, R. J. L. Davidson and J. G. Simpson 52
In-vitro effects of tetracycline drugs on mitogen-stimulated lymphocyte growth, by R. C. Potts, A. MacConnachie, A. A. Hassan, A. J. Robertson, L. Jones, J. H. Gibbs, R. A. Brown and J. Swanson Beck 53
Mitogen-stimulated lymphocyte growth and chronic uraemia, by J. Swanson Beck, A. J. Robertson, W. K. Stewart, R. C. Potts, J. H. Gibbs, R. A. Brown and J. C. Murdoch 53
The generation of abnormal cells and Reed-Sternberg cells from normal lymphocytes, by A. E. Stuart and E. Jackson 53
The identification of human IgE with a monoclonal antibody by D. Murdoch and J. Piris 54
Comparison of tinctorial and immunohistological methods for the detection of immunoproteins in fibrinoid change, by A. G. MacIver and June Giddings . 54
Contribution by the spleen and lungs to the kinetics of blood clearance of colloids, by R. G. White . . . 55
What do immune complex assays measure?, by P. J. Gallagher, N. J. Goulding and D. B. Jones . . . 55
Allergic aspergillosis of the para-nasal sinuses, by D. Lamb, J. Miller and A. Johnston 56
Saprophytic invasion of infarcted pulmonary tissue by Aspergillus species, by D. R. Buchanan and D. Lamb . . 56
The localisation of regulatory peptides in the respiratory tract, by Mary N. Sheppard, M. A. Ghatei, D. J. O'Shaughnessy, T. E. Adrian, G. P. McGregor, S. R. Bloom and Julia M. Polak 57
Mesothelial proliferation in pleural biopsies, by Amanda Herbert and P. J. Gallagher 57

PAGE

Localized pulmonary arteritis in rheumatoid disease, by R. H. Steele and J. Armstrong 58
Invasive lobular carcinoma of the breast histological features and their influence on survival, by J. M. Dixon, T. J. Anderson, D. L. Page, D. Lee and S. Duffy 58
Morphological evaluation of cell turnover in the "resting" human breast, by D. J. P. Ferguson, G. Raab and T. J. Anderson 59
Immunofluorescent localization of newly synthesised elastin in human breast and aorta, by Kay Barnard, K. G. McCullagh and J. D. Davies 59
Peroxidase-antiperoxidase immunolocalisation of newly formed elastin paraffin-embedded breast lesions, by J. D. Davies, Kay Barnard and Elizabeth W. Young 60
Biochemical appraisal of ligand-antibody and labelled-ligand methods for the histological localization of oestrogen receptors, by J. C. E. Underwood, E. Sher, M. Reed, J. A. Eisman and T. J. Martin 61
The prognostic value of measurement of elastosis in breast carcinoma, by A. J. Robertson, R. A. Brown, I. A. Cree, J. B. MacGillivray, W. Slidders and J. Swanson Beck 61
Localisation and quantitation of aluminium in bone in renal osteomalacia using x-ray microanalysis, by B. F. Boyce, H. Y. Elder, G. S. Fell, W. A. P. Nicholson, G. D. Smith, A. Ferguson, D. W. Dempster and I. T. Boyle 62
Tryptophan and tryptophan metabolites in amyloid, by R. J. Dickie and S. W. B. Ewen 62
Phase contrast microscopy of formaldehyde vapour fixed and Acriflavine-Feulgen-Nile Blue stained gynaecological smears, by A. de Lemos Bastos and J. Dias Vigário 62
Further studies of inherited effects following polyoma inoculation in outbred (CFLP) mice, by P-J. Lamey, M. M. Ferguson and C. G. G. Sutherland . 63
Induction of renal tumours in rats by the administration of 1,2-dimethylhydrazine, by J. P. Sunter and P. V. Senior 63
Recurring digital fibroma of infancy and childhood, by Gabriel Mortimer and A. A. M. Gibson 64
Neurone specific enolase: an aid to the diagnosis of melanoma, by J. Rode, A. P. Dhillon and A. Leathem . . 64

PAGE

Sister chromatid exchange (SCE) frequency in human epidermal cells in culture-treated 8-methoxypsoralen and longwave ultraviolet radiation, by M. R. West 65
Glucocorticoid-induced cell death and cell cycle control, by R. W. Blewitt and C. C. Bird 65
Regulation of haematopoietic stem cell proliferation in mice and men, by G. Wright 66
Elliptocytosis, ovalocytosis and haemolytic anaemia, by H. B. Goodall 66
The role of routine histopathology as a prognostic factor in childhood non-Hodgkin's lymphoma (C-NHL)-experience of the children's cancer study group (CCSG), by J. Wilson, D. Jenkin, J. Anderson, W. Sheehan, R. Chilcote, P. Coccia, P. Exelby, J. Kersey, J. Kushner, A. Meadows, S. Leikin and D. Hammond . . . 67
Immunostaining of vasoactive intestinal polypeptide (VIP) containing nerves as a differential tool in the diagnosis of inflammatory bowel diseases, by Anne E. Bishop, C. O'Moraine, A. J. Levi, T. J. Peters, S. R. Bloom and Julia M. Polak 67
Neonatal necrotising enterocolitis, by A. Taghizadeh and J. F. Smith . . . 68
Polyps of the large intestine in north-east Scotland, by J. C. Clark, J. G. Simpson and S. W. B. Ewen 68
Substance P and VIP are present in distinct subpopulations of P-type enteric neurons, by L. Probert, J. De Mey, G.-L. Ferri and J. M. Polak . 69
Development of gastrin-, somatostatin-, glucagon- and serotonin-containing cells in the human fetal stomach, by B. A. Stein, A. M. J. Buchan, J. F. Morris and J. M. Lolak . . . 69
Pepsin-pepsinogen in gastric carcinomas, by W. A. Reid 70
Mucin histochemistry of gastric intestinal metaplasia, by M. Wells, M. Stewart and M. F. Dixon 70
Neuron specific enolase: its developmental pattern in human fetal gut, by A. Harris, J. M. Polak, G.-L. Ferri, P. J. Marangos and A. G. E. Pearse . 71
A comparison of fluid phase and absorption endocytosis in gallbladder epithelium, by S. G. Coghill, G. Milne and D. Hopwood 71
The pathogenesis of secondary biliary cirrhosis, by Janice R. Anderson and D. G. D. Wight 72
Liver membrane antibodies to alcohol-altered rabbit hepatocytes in patients

PAGE

with alcoholic liver disease, by R. S. Anthony, Maura Farquharson, W. S. Hislop and R. N. M. MacSween . . 72
Early changes in nuclear ploidy of murine hepatocytes following various forms of stimuli and cellular injury, by P. R. M. Steele, A. Yim, B. M. Herbertson and J. Watson 73
The histochemical demonstration of the Lyon hypothesis, by K. A. Draycott, S. Howell and E. D. Williams . . . 73
Antibody in the pathogenesis of BCG lesions, by Y. Marianayagam, M. Ridley and W. G. Spector . . . 74
Zollinger-Ellison syndrome due to gastrin secreting ovarian mucinous cystadenoma, by M. Wells and R. C. Macdonald 74
Effects of the Landschütz ascites carcinoma on macrophage activity and liver granuloma formation in C. parvum injected mice, by Lesley C. McIntosh, A. W. Thomson and R. A. Fraser 74
Gut endocrine cells in intestinal adaptation: the enteroglucagon cells after ileal-duodenal transposition, by G.-L. Ferri, H. S. Koopmans, M. A. Ghatei, S. R. Bloom and J. M. Polak . . 75
Development of the peptidergic innervation of the human gut: the use of whole-mount preparations, a new approach, by G.-L. Ferri, A. Harris and J. M. Polak 76
Role of complement in demyelination induced *in vitro* by multiple sclerosis serum, by K. Bradbury, S. R. Aparicio and C. C. Bird 76
Cerebral ventricular enlargement: an inconstant feature of Alzheimer's disease, by J. M. Anderson and B. M. Hubbard 77
Collagenolytic activity of cerebral tumours *in vitro*, by A. N. A. Halaka, C. C. Bird, J. Reynolds and Y. R. A. D. Bunning 77
Somatostatin in Hashimoto's thyroiditis: a paracrine contribution to thyroid dysfunction, by A. P. Dhillon, J. Rode and Lucienne Papadaki . . . 77
Tumour induction in thyroid follicular cells, C cells and parathyroid cells, by V. Thurston and E. D. Williams . . 78
Uncoupling of growth and functional responses of the rat thyroid gland, by D. Wynford-Thomas, B. M. J. Stringer and E. D. Williams 79
Electron microscope immunocytochemistry, by G. R. Newman, B. Jasani and E. D. Williams . . . 79
Hapten-labelled ligands as immunocytochemical probes of membrane and

PAGE

subcellular receptors, by B. Jasani, G. R. Newman, N. D. Thomas and E. D. Williams 80
The ultrastructure of asbestos induced rat pleural mesotheliomas following transplantation into syngeneic animals, by N. F. Johnson, J. C. Wagner, D. G. Brown and M. M. F. Wagner . . 80
The effect of asbestos on peritoneal macrophages, by N. F. Johnson and R. Davies 81
The ultrastructure of the glomerular crescent, by A. L. C. McLay, Anne Marie McNicol and P. G. Toner . . . 81
Peptide hormones in mucinous tumours of the ovary, by A. Schaberg, J. W. Louwerens and F. T. Bosman . . 81
Electronimmunocytochemical localisation of enkephalin-like immunoreactivity in carotid body, adrenal medulla and phaeochromocytoma, by I. M. Varndell, F. Tapia, J. de Mey and J. M. Polak 82
Neurotensin-like immunoreactivity in adrenal medulla, by G. Terenghi, I. M. Varndell, J. Wharton, Y. C. Lee, S. R. Bloom and J. M. Polak . . . 82
Vasoactive intestinal polypeptide (VIP) in the human male genital tract, by J. Gu, S. Mina, S. R. Bloom and J. M. Polak . 83

SYNOPSES OF PAPERS given as posters at the January 1981 meeting of the Society

The effects of lipid peroxidation on isolated heart muscle cells, by E. M. Steen, A. M. Noronha-Dutra and S. Rump 84
Mucin histochemistry of cystitis glandularis, by M. Wells 84
Immunoperoxidase labelling of monoclonal antibodies against human tissues, by D. Y. Mason, J. L. Cordell, R-E. Woolston, M. Naiem and G. Bordenave 85
Production of monoclonal antibodies for the immunohistological analysis of human lymphoid tissue, by M. Naiem, J. Gerdes, H. Stein, K. Gatter, A. Grubb and D. Y. Mason . . . 85
Iatrogenic venoocclusive disease, by M. Satti and D. J. Evans 86
Assessment of fixatives in immunohistochemistry using ELISA, by G. Watts and A. Leathem 86
Gold induced glomerulonephritis in mice loaded with immune complexes, by Debra Gilbert and A. Leathem . . 87
Enzymes as markers in carcinoma of the pancreas, by N. Atkins and A. Leathem 87
Reduction of plasminogen activator (fibrinolytic) activity does not

necessarily lead to loss of ability of cells to grow in agar or syngeneic rats, by J. P. Roscoe, A. M. Owsianka, M. R. Tolson and S. R. Fairbairn . 88
Protein patterns in malignant, ethylnitrosourea-exposed and control cell cultures, by M. R. Tolson and J. P. Roscoe 88
Liver damage in cyclosporin A treated rats, by J. G. Simpson, I. D. Cameron, P. H. Whiting and A. W. Thomson . 89
Pathological evaluation of CT scan images of lung, by R. Coddington, S. L. Mera, P. R. Goddard, N. Wring and J. W. B. Bradfield 89
Serological changes in Corynebacterium parvum injected rats, by R. M. Mauchline, A. W. Thomson, P. W. Johnston, P. H. Whiting, J. G. Simpson and C. H. W. Horne 90
Peroxidase positive cells in the white pulp of the female mouse spleen, by B. Jasani, Mary F. Skinner, D. Ritchie and J. M. Stark 90
Pathways of goblet cell hyperplasia—the response of bronchial epithelium to tobacco smoke, by M. Ayers and P. K. Jeffrey 90
Neuropeptide distribution within the amygdaloid complex, by G. W. Roberts, T. J. Crow and J. M. Polak . 91
Separation and whole mount preparation of gut layers. A useful technique for the study of the gut regulatory peptide system in man, by G. L. Ferri, A. Harris, A. M. J. Buchan, S. R. Bloom and J. M. Polak 92
Neuron specific enolase as a useful histological marker for the demonstration of asbestos-induced endocrine cell hyperplasia of the rat lung, by G. A. Cole, J. M. Polak, N. F. Johnson, P. Marangos and A. G. E. Pearse . . 92
The use of gold labelled antibodies for the double and multiple immunostaining of the diffuse neuroendocrine system, by J. Gu, J. de Mey and J. M. Polak . . 93
Filariasis (Loa Loa) associated with membranous glomerulonephritis (demonstration of Filarial antigen), by A. R. Morley, S. T. A. Malik, M. McHugh, J. Ngu, M. Qureshi and R. Wilkinson . 94
The acute immunological reaction to a high protein meal, by N. J. Goulding, D. B. Jones, M. J. Gibney and P. J. Gallagher 94
SYNOVIAL MEMBRANE, effect of cortisol on porcine articular tissues in organ culture 335

TRANSPLANTATION, ISLET CELL, pancreatic: alleviation of diabetic microangiopathy in rats by 205
TUBULAR NECROSIS, RENAL following Russell's viper envenomation: ultrastructural study 225
TUMOURS, HUMAN, INDIVIDUAL, biological markers in human breast carcinoma . 109
enolase isoenzyme distribution in the human brain and its tumours . . 37
inclusion body fibromatosis . . . 99

JOURNAL OF PATHOLOGY, VOLUME 137

INDEX OF AUTHORS

PAGE

ABASCAL, J., LAUDER, I., CARTWRIGHT, R. A., FARNDON, J. R. and JOHNSTON, I. D. A., alleviation of diabetic micro-angiopathy in rats by pancreatic islet cell transplantation 205

BAILEY, A. J., SLOANE, J. P., TRICKEY, B. S. and ORMEROD, M. G., an immuno-cytochemical study of α-lactalbumin in human breast tissue 13

BELL, JEANNE E. and GREEN, R. J. L., studies on the area cerebrovasculosa of anencephalic fetuses 315

BLACKEMORE, W. F. and PALMER, A. C., delayed infarction of spinal cord white matter following x-irradiation . . 273

BRADE, V., DIESSELHOFF-DEN DULK, M. M. C. and VAN FURTH, R., isolation and characterisation of mononuclear phagocytes from the bone marrow, blood and peritoneal cavity of the guinea-pig 139

BURGOS-BRETONES, J. J., VILANOVA, J. R., ALVAREZ, J. A. and RIVERA-POMAR, J. M., benign schwannomas: a histo-pathological morphometric study . 281

CARTWRIGHT, R. A., LAUDER, I., ABASCAL, J., FARNDON, J. R. and JOHNSTON, I. D. A., alleviation of diabetic micro-angiopathy in rats by pancreatic inslet cell transplantation 205

CHAMBERS, T. J. and DUNN, C. J., the effect of parathyroid hormone, 1,25-dihydroxycholecalciferol and prosta-glandins on the cytoplasmic activity of isolated osteoclasts 193

DATE, A. and SHASTRY, J. C. M. renal ultrastructure in acute tubular necrosis following Russell's viper envenomation 225

DAVIES, D. J. and TANGE, J. D., factors influencing the severity and progress of ethylenimine-induced papillary necrosis 305

DAWSON, A. M., LEVISON, D. A., KINGHAM, J. G. C. and STANSFELD, A. G., slow cirrhosis—or no cirrhosis? A lesion causing benign intrahepatic portal hypertension 253

DIESSELHOFF-DEN DULK, M. M. C., BRADE, V. and VAN FURTH, R., isolation and characterisation of mononuclear phagocytes from the bone marrow, blood, and peritoneal cavity of the guinea-pig 139

DUNN, C. J. and CHAMBERS, T. J., the effect of parathyroid hormone, 1,25-dihydroxycholecalciferol and prosta-glandins on the cytoplasmic activity of isolated osteoclasts 193

EARLEY, M. J. and ZARDAWI, I. M., inclusion body fibromatosis . . 99

FARNDON, J. R., LAUDER, I., ABASCAL, J., CARTWRIGHT, R. A. AND JOHNSTON, I. D. A., alleviation of diabetic micro-angiopathy in rats by pancreatic islet cell transplantation 205

FASSBENDER, REGINE and SIMMLING-ANNEFELD, MARLIESE, ultrastructural examination of the skeletal muscles in polymyalgia rheumatica . . . 181

FELL, HONOR B., TYLER, JENNY A. and LAWRENCE, C. E., the effect of cortisol on porcine articular tissues in organ culture 335

GREEN, D., LOUTIT, J. F. and HOWELLS, G. R., reduced resorption of cortical bone in mice with induced osteo-petrosis 217

GREEN, R. J. L. and BELL, JEANNE E., studies on the area cerebrovasculosa of anencephalic fetuses 315

GROUNDS, MIRANDA D., MURCH, A. R., MARSHALL, C. A. and PAPADIMI-TRIOU, J. M., direct evidence that in-flammatory multinucleate giant cells form by fusion 177

HEATH, D., SMITH, P. and JAGO, R., anatomical variation and quantitative histology of the normal and enlarged carotid body 287

HOWELLS, G. R., LOUTIT, J. F. and GREEN, D., reduced resorption of cortical bone in mice with induced osteopetrosis . 217

JACKSON, ELIZABETH, STUART, A. E. and MORRIS, CHRISTINE S., the reaction of xenogeneic and monoclonal antisera with Reed-Sternberg cells . . . 129
